**1<sup>st</sup> January 2022**

Dear Orchid Friends and Customers,

It's the beginning of December and we have recently had the news of the latest Covid variant, Omicron. My heart goes out to all in the tourist industry and to all those families affected by the travel ban which seems to be targeting South Africans in particular! My sister hasn't seen her son for 3 years now and his January trip is, of course, postponed indefinitely! At least we are still at Lockdown level 1, but for how long!

The orchid business has ticked over – good months when the lockdown was reduced and poor months when severe lockdown was imposed. At least people are still able to buy via mail order and everyone has to repot their plants sometime – so bark sales have been good. On that subject, I have just received a stunning consignment of fine bark chips, perfect for smaller plants. Not only that, the bags were dropped off at the nursery as part of a much bigger load of growing medium to be delivered elsewhere in George. What a pleasure.....

Society news has improved, we have had a number of meetings but no Christmas in winter lunch. We did have our Spring show at the usual venue but numbers were decidedly lower than previous years. Plant sales were unexpectedly good - so no complaints! We had fewer stands but the ones that exhibited were of very high quality. This Saturday we will have our Christmas lunch at the Hussar Grill so something to look forward to.

I have managed to obtain a number of new plants this year but am unable to import due to the many restrictions and the enormously increased cost of airfreight to bring the plants into South Africa. I will just have to wait a little longer.

Do read the descriptions on the new list – I have put the quantities left over if there are only a few in stock, sometimes only one, but if it is a nice plant, it's a pity not to offer it. I have also divided some of my own stock and they will be added as soon as they are rooted and ready to go.

I am still only open to the public on a Wednesday morning from 10am – 1pm, otherwise by appointment. It is still working very well supplying Norga River Nursery with the orchid mixes and flowering plants so don't forget you can pop in there if you need mix in a hurry. They are on the Airport Road 102, George.

Wishing you all the best for a fabulous and healthy orchid growing year in 2022!

## CATTLEYA AND OTHER SPECIES – CARTER AND HOLMES ORCHIDS

Code	Description		Price
D/o	<b><i>Aerangis modesta</i></b> A small sized Madagascan and Comoran species. It is a warm growing epiphyte which blooms in the spring to early summer on pendant stems with fragrant minty scented, long lived flowers. Mounted.		195.00
O/o	<b><i>Aerangis mystacidii</i></b> Miniature epiphytic species found in South and southern Africa in riverine forests. It has an arching to pendant inflorescence that carries from 3 – 25 nocturnally fragrant flowers occurring in summer and fall. Best mounted.		195.00
O/o	<b><i>Aerangis verdickii</i></b> Mounted plants of this creamy white species. Hot to warm growing small monopodial epiphyte from Southern Africa. Mounted. Limited.		250.00
TSG	<b><i>Amesiella monticola</i></b> Found in central Luzon, one of the northern Philippine islands, this small plant bears inflorescences of up to 3 flowers about 6cm across and has a nectary 11cm long. Small plants. 8cm pots.		295.00
O/o	<b><i>Anathallis linearifolia</i></b> Found in Brazil and N Argentina this is a mini-miniature sized warm to cool growing epiphyte that blooms in spring on a long simultaneously 9-12 flowered inflorescence. 8cm pots.		95.00
O/o	<b><i>Angraecum longicalcar</i></b> Just a few left of this long spur form of eburneum. Madagascar. 10cm pots. 2 left.		195.00

9927	<p><b><i>Angraecum sesquipedale</i></b>  <b>'Farris' x 'Orchidglade II'</b>  <b>FCC/AOS</b></p> <p>Known as Darwin's orchid, this species has huge blooms in early summer with a long spur. Vigorous young plants in 9cm Disa pots from Carter and Holmes. Can be grown into large plants, spectacular for Spring shows! 9cm pots.</p>		295.00
O/o	<p><b><i>Ansellia africana</i></b></p> <p>Known as the 'leopard orchid' this epiphyte is found in the summer rainfall areas of southern Africa. 10cm pots.</p>		150.00
O/o	<p><b><i>Bifrenaria harrisoniae</i></b></p> <p>Found in coastal Brazil as a warm growing epiphyte, this rewarding plant blooming in late spring with delightful blooms held on short stems carrying 2 fruity scented flowers. B/size divisions in 15cm pots.</p>		250.00
9279 9280 9676	<p><b><i>Brassavola digbyana</i></b>  <b>('Crestwood Emerald' x 'Belize no. 2') ('Belize' #1 x self) ('Belize no. 2' x 'Crestwood Emerald')</b></p> <p>Now known as <i>Rhyncolaelia</i> this warm growing epiphyte from Mexico through to Costa Rica grows at elevations up to 1,000m. Expect lemon scented flowers in summer. Vigorous in 9cm pots.</p>		350.00
O/o	<p><b><i>Brassia mexicana (signata)</i></b></p> <p>This is a medium sized, cool growing epiphyte from Mexico found in moist oak forests. It blooms in spring and summer on a 30cm arching stem with up to 10 blooms per inflorescence. Mounted plants.</p>		250.00
O/o	<p><b><i>Brassia verrucosa</i></b></p> <p>Flowering size divisions of my own plant, this spider orchid is in 12.5cm pots. Just 1 available.</p>		295.00

O/o	<p><b><i>Brassia wagneri</i></b>  Found in Venezuela, Colombia, Peru in cool, wet montane forests as a medium sized warm to cool growing epiphyte. It blooms in spring, summer or fall with a 20cm long arching inflorescence with 8-15 flowers. Two nice divisions of this seldom offered Brassia. 15cm pots.</p>		325.00
9878	<p><b><i>C. bicolor 4N</i></b> (Seedling cross)  A tall, slender growing Brazilian species that loves bright light and warm temperatures. Clusters of waxy green blooms with bright fuchsia lips appear above bifoliate foliage. Bred from the tetraploid Mendenhall-Beta parent – expect heavy substance and clear, bright colouring. Spring/Summer. 9cm pots.</p>		495.00
M7757	<p><b><i>Cattleya bicolor 'Mendenhall-Beta' 4N</i></b>  Clusters of waxy green blooms with bright fuchsia lips appear above bifoliate foliage. These are mericlones from the presumed tetraploid 'Mendenhall-Beta'. Great colouring and incredible substance. A bit slower growing but no less vigorous. 9cm pots</p>		525.00
10198	<p><b><i>Cattleya harrisoniae 'Homestead' x harrisoniae</i></b>  Stunning species is from SE Brazil and loves warm, bright conditions. Tall upright stems of bold heliotrope coloured blooms in the middle of summer. 9cm pots</p>		375.00
TSG	<p><b><i>C. intermedia var. Orlata Red</i></b>  Spring blooming easy to grow cattleya with a dark cerise lip. Blooming size plants in 12.5 cm pots.</p>		350.00

O/o	<b><i>C. intermedia</i> var <i>coerulea</i></b> Mounted plants of this blue form of <i>C intermedia</i> .		325.00
10214	<b><i>C. labiata alba</i> x <i>self</i></b> Superb white form of this well known Cattleya. 9cm pots. 2 left.		325.00
J/H	<b><i>Coelogne cristata</i></b> Epiphytic orchid from cool moist areas of E Himalayans and Vietnam. Blooms in spring. 12.5cm pots.		175.00
O/	<b><i>Coelogne intermedia</i></b> Found in southern India at fairly high elevations. Blooms in spring and summer on an 8-10 flowered inflorescence with fragrant flowers. 12.5cm pots.		195.00
O/o	<b><i>Coelogne multiflora</i></b> Found in Sulawesi in lower montane forests as a large sized, cool growing epiphyte that blooms in winter on long, densely many flowered inflorescences that smell of fresh cut ginger root. 15cm pots R250 and 1x 17.5cm pot at R350.00		250.00
O/o	<b><i>Dendrobium adae</i></b> Sympodial epiphyte or lithophyte found in northeastern Australia. Medium sized, cold to cool growing. Apical raceme has 2-6 fragrant flowers in spring.		225.00
O/o	<b><i>Dendrobium crysocrepis</i></b> From China, this is a small sized, cool growing lithophyte that blooms in spring and summer on a slender, short single flowered inflorescence. From the Callista group.		175.00

O/o	<p><b><i>Den. kingianum</i> Lipstick Inferno 'Stan'</b>  <b>CCE/AM/SAOC</b></p> <p>Easy to grow Australian dendrobium species. This is a very good awarded clone and is very dark. It is warm growing lithophyte which blooms in spring and makes wonderful specimen plants. Dark lavender. 12.5cm pots.</p>		150.00 and 250.00
O/o	<p><b><i>Den kingianum</i> var album</b></p> <p>A wonderful mini Dendrobium from Australia with a sweet fragrance and unusual white color form. Easy to grow species not easily found. 10cm pots. Vigorous. Give a dry cool rest for at least 6 weeks in mid-winter. 9cm pots. Blooming size.</p>		150.00
O/o	<p><b><i>Dendrobium moniliforme</i></b></p> <p>From China and surrounding countries, this medium sized, cool to warm growing epiphyte blooms from winter to end summer on a short, 2 flowered inflorescence with fragrant, rosy scented flowers. Deciduous.</p>		125.00
O/o	<p><b><i>Dendrobium moschatum</i></b></p> <p>This orchid is native to the Himalayas, has tall canes and blooms in the summer with delicate apricot coloured blooms. Easy to grow and flower. 9cm Disa pots.</p>		95.00
O/o	<p><b><i>Den mutabile</i></b></p> <p>Found in India at 700m as a small sized, warm growing epiphyte blooming through the year and often twice. 4-15 flowered inflorescence.</p>		195.00

A/o	<p><b><i>Den nobile var Cooksonii</i></b>  From Chinese Himalayas this is a cool to hot growing terrestrial or lithophytic species. Blooms mostly in winter and spring with fragrant honey perfume. Blooms on leafed and leafless canes. Blooming size, mounted</p>		225.00
TSG	<p><b><i>Dendrobium parishii</i></b>  Small to medium sized, hot to cool growing epiphyte with erect or downbent yellowish stems carrying deciduous leaves. Flowering occurs in summer with a 2 to 3 flowered raceme with fragrant long-lasting flowers smelling of raspberry. Reduce water in winter to give a rest prior to the following blooming season.</p>		275.00
A/o	<p><b><i>Dendrobium signatum</i></b>  From Myanmar, Thailand, growing at 200-1500m as medium sized hot to cool epiphyte. Blooms in winter through to early summer on a short inflorescence with 2 flowers that are fragrant and long-lived. Mounted.</p>		200.00
O/o	<p><b><i>Den. speciosum</i></b>  Found in N. S. Wales and Victoria in Australia at fairly low altitudes, this medium to large sized, cool to hot growing lithophyte likes good air movement and grows near rocks at the base of cliffs in open forests with good air movement. 18cm pots.</p>		450.00
O/	<p><b><i>Den. Speciosum</i></b>  Very vigorous, near blooming size plants. 15 cm pots</p>		295.00

A/o	<b><i>Dendrobium tortile</i></b> (Mtd) From India and surrounding areas, this small to medium sized, cool growing epiphyte blooms with a 2-3 flowered inflorescence in late winter.		210.00
A/o	<b><i>Dendrochilum formosanum</i></b> The 'beautiful' dendrochilum! These warm to cool growing orchids prefer to grow in pots which are kept evenly moist at all times. 10 cm pots		150.00
M/B	<b><i>Dendrochilum magnum</i></b> <b>'Green and Gold'</b> Just one left from original plant from CAL Orchids. Makes a lovely specimen. It is native to the Phillipines and likes medium light and warm conditions. 12.5cm pot. Just one left.		250.00
O/o	<b><i>Dendrochilum wenzellii</i></b> <b>(yellow)</b> Also from CAL orchids, this is the yellow form of wenzellii. In a 9cm Disa pot.		150.00
O/o	<b><i>Dendrochilum wenzellii</i></b> <b>(red form)</b> Red form of this delightful and easy growing dendrochilum. 9cm Disa pots.		150.00
O/o	<b><i>Epidendrum centropetalum</i></b> 9cm Disa pots of this attractive pink species – easy to grow and bloom. Just rooting. Available for mail order from March 2022.		95.00
A/o	<b><i>Epidendrum elongatum</i></b> Found only on Martinique in the Lesser Antilles as a sturdy, erect, hot to cool growing epiphyte or terrestrial. Blooms in spring and summer. 12.5cm pots		165.00

A/o	<p><b><i>Epidendrum quitensium</i></b>  Easy growing floriferous reedstem Epi with 18" canes with closely spaced upward pointing leathery leaves, inflorescences as tall as 3' produce a circular head of continuously blooming solid purple flowers. 12.5cm pots.</p>		165.00
O/o	<p><b><i>Epidendrum xanthinum</i></b>  Found in Colombia and Brazil this is a large sized, cool growing terrestrial reedstem orchid that blooms in spring and fall on a 60cm long inflorescence with flowers clustered in a ball at the apex.</p>		165.00
D/o	<p><b><i>Eria spicata</i></b>  From China and the Western Himalayas this is a miniature, warm to cold growing epiphyte that blooms in spring and summer with a 12-18cm long inflorescence carrying 5-20 fragrant flowers which are white with a touch of pink in the centre. 9cm Disa pots.</p>		195.00
A/o	<p><b><i>Gongora galeata</i></b>  Medium sized, Mexican epiphyte found in cloud forests at 600-800m. Blooms in summer and autumn with long, pendant, many flowered inflorescences with fragrant orange scented flowers. 10cm pots</p>		195.00
O/o	<p><b><i>Jumellia arachnantha</i></b>  Found on the Comores Islands in forests as a medium sized, cool growing epiphyte which blooms in late spring with jasmine scented flowers. 3 large plants available.</p>		375.00

O/o	<p><b><i>Jumellea major</i></b>  From N. Madagascar in montane forests this is a large sized, cool growing, epiphytic orchid with a thick flattened stem carrying a fan of 11 – 17 large, leathery, bilobed leaves. Blooms are scented at night. Large single fans, some with new growths, in 15cm square pots. B/size.</p>		250.00
O/o	<p><b><i>Laelia anceps</i></b>  A few mounted plants, blooming size, various parents.</p>		300.00
10176	<p><b><i>Laelia purpurata coerulea</i> 'Sweet Twilight' x <i>werkhauseri</i> 'Blue Sky'</b>  Expect a new generation of seedlings that will have petals either pure white or slightly smokey grey. Trumpet shaped lips will have colours from slate to hyacinth combined with a heady floral fragrance. 9cm pots. 1 left.</p>		355.00
10098	<p><b><i>Laelia purpurata</i> var. <i>venosa</i> 'Bella' AM/AOS x self</b>  Expect fine striations throughout the petals, sepals and lip. 9cm pots.</p>		355.00
O/o	<p><b><i>Laelia purpurata</i> 'Violetta x Flammea'</b>  Blooming size plants growing in 17.5cm green pots. Very vigorous. All large blooming size.</p>		495 .00
9982	<p><b><i>Laelia rubescens (alba x aurea) x sib</i></b>  This hard to find species is native to Mexico and through Central America. Plants have rounded, short pseudobulbs with thick foliage. Tall stems emerge after the summer. Flowers will be creamy off-white with black 'eyes'. 8cm.</p>		420.00

E23	<p><b><i>Masdevallia bicolor</i></b>  From Peru &amp; Ecuador, this miniature is a cold to warm growing epiphytic species found in wet montane forests. It blooms in spring with 2-4 successive opening flowers per inflorescence.</p>		275.00
E26	<p><b><i>Masdevallia delhierroi red</i></b>  From Ecuador, dark red flowers and held just above the foliage. 1 left.</p>		285.00
E27	<p><b><i>Masdevallia herradurae</i></b>  Found in Colombia and Ecuador where it grows on mossy trees at about 500m. It is a mini-miniature sized, cool growing epiphyte. Flowers smells of stale coconut and are held at or below leaf height. Very floriferous and can bloom on old leaves.</p>		285.00
E29	<p><b><i>Masdevallia murex</i></b>  Found in the Ecuadorian and Peruvian cloud forests, this miniature sized epiphyte likes high humidity and even year round waterings. 4cm stems carry purple suffused, solitary flower at or below leaf height occurring in the summer.</p>		285.00
E30	<p><b><i>Masdevallia peristeria</i></b>  Small sized, cool to cold growing Colombian or Ecuadorian epiphytic or terrestrial species found in open woodlands. 9cm stems carry pale green, spotted with crimson inflorescences.</p>		275.00
O/o	<p><b><i>Masdevallia rolfeana</i></b>  Nice divisions of this easy to grow Masdevallia.</p>		225.00

E36	<p><b><i>Masdevallia striatella</i></b>  Mini-miniature species from Costa Rica, Panama etc. Grows in lower montane cloud forests on tree trunks. Blooms on erect, 7cm long, successive solitary flowered inflorescence holding a single flower and occurring in the autumn and early winter. 1 left</p>		275.00
O/o	<p><b><i>Masdevallia towarensis</i></b>  <b>'Puffin'</b>  Original plant from J &amp; L Orchids. Reliable bloomer every year, lovely white blooms.</p>		275.00
O/o	<p><b><i>Maxillaria sophronitis</i></b>  Found in Venezuela and NE Colombia as a dwarf sized, mat forming, cool to warm growing species that blooms in early winter with a single flowered orange/red inflorescence. 9cm pots.</p>		125.00
O/o	<p><b><i>Maxillaria lehmanii</i></b>  Found in Western Ecuador and Peru in wet montane cloud forests as a warm to cool growing epiphyte. Blooms in spring and summer on 20cm long, single flowered inflorescence arising on a mature pseudobulb. Grows and flowers well on the Garden Route. 12.5cm pots.</p>		350.00
O/o	<p><b><i>Maxillaria tenuifolia</i></b>  This warm growing epiphyte is found from Mexico to Costa Rica. It has an ascending growth habit and flowers form on mature pseudobulbs during spring and summer. Commonly known as the 'coconut orchid' due to its strong scent. 9cm pots.</p>		125.00

O/o	<p><b><i>Maxillaria variabilis</i></b>  Found in Mexico and surrounding countries in humid forests as a small sized, warm to cool growing, solitary leafed species. Single flowered inflorescence with variable coloured, long lasting blooms. 9cm pots.</p>		150.00
D/o	<p><b><i>Neobenthamia gracilis</i></b>  Found in Tanzania as a giant sized, hot to warm growing terrestrial or lithophyte from 380-2000. It has a 12.5cm inflorescence with fragrant flowers held in a spherical head. 9cm pots.</p>		95.00
O/o	<p><b><i>Oncidium sphacelatum</i></b>  Delightful, easy to grow species which blooms in mid-summer will long spikes and many yellow/brown blooms. 15cm pots.</p>		150.00
O/o	<p><b><i>Phragmipedium humboldtii</i></b>  Small sized humus epiphyte with a short stem and medium to dark green leaves that blooms in spring and summer with a 25cm long, 2 – 4 simultaneous flowered inflorescence holding flowers well above the leaves. 15cm pots, near blooming size.</p>		850.00
O/o	<p><b><i>Phragmipedium longifolium</i></b>  Found in Costa Rica, Panama etc on roadside banks as medium to lrg sized warm to cool growing terrestrial in shaded areas with thin soil. 60cm long stems with deep purple to green several flowered inflorescence with 7 – 9 flowers opening in succession mostly in autumn. Blooming size in 15 cm pots.</p>		795.00

O/o	<p><b><i>Prosthecea pachycephala</i></b>  One planty available in 15cm pot, division of own plant. B/size</p>			325.00
O/o	<p><b><i>Prosthecea prismatocarpa</i></b>  Found in Costa Rica and Panama, this cool growing epiphyte carries bright, long lasting flowers in spring and summer. 10cm pots.</p>			260.00
O/o	<p><b><i>Prosthecea vespa</i></b>  One plant available in 15cm pot, division of own plant. B/size</p>			275.00
A/o	<p><b><i>Restripia brachypus</i></b>  From Venezuela and Peru areas in wet montane forests this miniature cool to cold growing epiphyte carries a single, broad leaf that blooms on a terminal single flowered inflorescence in winter and spring. Mesh pots, blooming size.</p>			160.00
CSB	<p><b><i>Sobralia macrantha alba</i> 'Angelique'</b>  This orchid was discovered in 1841 and is very easy to grow in cultivation. The flowers are large and pristine white arising from terminal inflorescences and lasting 1-2 days. The flowers open successively so plants can remain in bloom for a long period. Very lrg plants.</p>			550.00

CSB	<p><b><i>Sobralia macrantha</i></b></p> <p>A large sized terrestrial, intermediate growing species from Mexico and surrounding countries. Flowers occur from spring till autumn with fragrant, short-lived flowers. Blooming size 17 cm pots.</p>		350.00
O/o	<p><b><i>Sobralia macrantha</i></b></p> <p>10cm pots – lavender</p>		13 5.00
CSB	<p><b><i>Sobralia macrantha pumila (humilis)</i></b></p> <p>A miniature form of this Sobralia in creamy yellow. Obtained from Glasgow Botanical Gardens by Jim Holmes. 15cm pots.</p>		295.00
O/o	<p><b><i>Stelis micrantha</i></b></p> <p>Found in the region of Colombia, Venezuela etc, this is a miniature sized hot to cool growing epiphyte that blooms in winter and spring with a many flowered inflorescence. 8cm pots.</p>		95.00
D/o	<p><b><i>Stelis vulcanica</i></b></p> <p>These epiphytic orchids are widely distributed throughout much of S America. The stems are upright with 8-10 tiny maroon flowers. Vigorous. Flower size many times magnified!</p>		195.00
TSG	<p><b><i>Vanda falcata – white</i></b></p> <p>This orchid comes from Japan and Korea and is a warm to cool grower found in areas that have a shady summer. Epiphytic. Inflorescences appear in early summer with nocturnal fragrant flowers. Miniature growing. 8cm pots.</p>		345.00
O/o	<p><b><i>Zygopetalum mackayi</i></b></p> <p>Blooming size plants of this Brazilian terrestrial species. It has fragrant, waxy, long lived flowers in autumn and winter. 5-8 blooms per inflorescence. 15cm pots.</p>		300.00

**CATTLEYA ALLIANCE MERICLONES – CARTER AND HOLMES ORCHIDS**

<b>Code</b>	<b>Description</b>		<b>Price</b>
M4703	<b>Bc. Maikai 'Louise'</b> Compact growing, cream coloured blooms with lavender overlay. Wonderful lips! Vigorous plants in 9cm disa pots, near blooming size. Gives multiple leads in spring.		175.00

9935	<b>Blc. Love Sound 'Dogashima' x Pot. Newberry Sweetheart 'Lipstick'</b> (Photo Blc Love Sound) Newberry Sweetheart is a rosy pink compact plant with large blooms. Expect well shaped, art shades. 9cm pots.		325.00
10194	<b>Blc. Pratum Green 'Royston' FCC/AOS x Blc. Bald Eagle 'Columbia' AM/AOS</b> (Photo Blc Pratum Green 'Royston'). Expect light greens with darker lips. 9cm pots. Just one left.		325.00
O/o	<b>C. Cornel's Love</b> Bit bigger than a mini-catt with really large, shapely blooms. Autumn blooming. 12.5 cm pots.		325.00
10188	<b>C. Mark Jones x C. Mark Jones 'Newberry'</b> Standard sized, bifoliate plants will have clusters of waxy green or cream blooms showing a heavy overlay of dark red freckles. Bright magenta coloured lips on all. Suitable for basket or mount culture or pots with well-draining media. 9cm pots. 1 left.		325.00
10137	<b>C. Mrs Myra Peeters (gaskelliana coerulea 'Anna's Joy' x warneri coerulea 'Miranda' FCC/AOS)</b> (Photo C gaskelliana coerulea) Expect flowers very similar to photo. 9cm pots.		325.00

O/o	<b>Cattleya Pacavia</b> <b>(C tenebrosa x C purpurata)</b> Grown from flask, these young plants are now in 9cm Disa pots and are ready for new homes. Summer blooming. Limited.		125.00
9866	<b>C. Portia coerulea (C. labiata coerulea 'Canaimas Heidelbeer' x C. bowringiana coerulea 'Willowpond')</b> Everyone loves a blue cattleya and the C&H remake of this popular cross will produce some showy results. Plants will be large growing with clusters of lilac and blue flowers with soft yellow throats. Lightly fragrant. 9cm		325.00
9997	<b>Laelia Pulcherrima (L purpurata concolor 'Jeni' x L purpurata carnea 'Newberry Perfection')</b> Beautiful colour form of this excellent primary hybrid from the cross of two of Brazil's most beautiful species, L lobata and L purpurata. The blooms are oh so delicately marked. 9 cm pots.		325.00
8920	<b>Lc. Li Cheng Mary x Lc. Stephen Splendor 'no. 1'</b> New line breeding from the famous Lc Persepolis 'Splendor' for lavish semi-alba blooms with deep red-purple lips. Large growing with broad foliage. Fall/winter blooming. 12.5 cm pots.		325.00
10122	<b>Lc. Marcello Miranda 'Emily' AM/AOS x C labiata coerulea 'Canaimas Heidelbeer'</b> Photo Lc Marcello Miranda – used extensively in breeding quality blue cattleyas. The C labiate used is of very good quality. 9cm pots.		325.00
9964	<b>Lc. C. G. Roebling 'Royal Purple' HCC/AOS x self</b> Large, light bluish/white flowers that have a deep purple tubular lip and gold veining. 9cm pots.		325.00

10196	<p><b>Pot. Ann Cutter (Pot. Greg Uzar 'Newberry Majesty' x Sc Lana Coryell 'Forevermore' AM/AOS)</b> (Photo Sc Lana Coryell) Soft yellows and pinks, good shape and size. 9cm pots.</p>		325.00
10227	<p><b>Pot. Greg Uzar 'Newberry Majesty' x Lc. Lou Gilmore 'Sunflower'</b> Photo: Lou Gilmore New breeding for luscious yellows with red or pink lip colouring. Both parents are good growers and tend to produce multiple growths. Very fragrant. 9cm pots.</p>		325.00
10239	<p><b>Pot. Greg Uzar 'Sunshine' x Sc. Beaufort 'Harfords's Elmwood'</b> Photo: Sc Beaufort (minicatt). I am sure this hybrid is going to produce some really special blooms. All will be yellow, with good substance. 9cm pots</p>		325.00
10046	<p><b>Pot. Paxton Brooks 'Orange Surprise' x Pot. Paxton Brooks 'Sunset Glow'</b> The compact seedlings were bred from 2 strong growing parents, both very floriferous with vibrantly shaded blooms. Winter-various. 9cm pots.</p>		325.00
9816	<p><b>Sc. Dandee Tease (4N) (C percivaliana x Sc. Beaufort)</b> (Photo C percivaliana) Imported for the second time. Very popular cross, vigorous and floriferous. 8cm pots.</p>		325.00
10186	<p><b>Sc. Lana Coryell 'Pink' x Bc Raspberry Parfait 'Lorraie McLellan'</b> (Photo Bc Raspberry Parfait). Expect pretty, compact growing plants with candy pink blooms. Could flower twice a year. Seedlings are provings to be warmth tolerant. 9cm pots.</p>		325.00

9994	<p><b>Slc. Anne Tapper 'Mendenhall' x Lc. Jungle Elf 'Carmela'</b> (Photo Slc. Anne Tapper). Jungle Elf is a short bifoliate with dark red spots over sunny yellow blooms. Expect a range of red, orange and gold blooms with varying markings on compact growing plants. Warmth tolerant and suitable for basket culture. 9cm pots.</p>		325.00

Code	Description		Price
O/o	<p><b>Angraecum Veitchii 'White Star'</b> Originally from Hausermann's Orchids. I have now divided my original plant into large fan divisions, all blooming size. The cross is <i>Ang sesquipedale</i> x <i>Ang eburneum</i>. This is an intermediate grower and blooms for me every year without fail, usually just before show time, but lasts well. Large fan in 20cm pot.</p>		595.00
9981 C&H	<p><b>Bifrenaria Fuersten Mountain</b> (<i>Bifrenaria inodora</i> x <i>harrisoniae</i>) Interesting cross from Carter and Holmes of the light green/lavender lipped <i>B. inodora</i> with <i>B harrisoniae</i> (see photo). Need winter rest, blooms in early summer for shows. Blooming size plants in 15cm pots.</p>		195.00

M/B	<b>Bulbophyllum Elizabeth Ann</b> <b>'Buckleberry'</b> Got a few divisions of a good clone from Mike Byren a couple of months ago.		175.00
O/	<b>Den. Super Ise x Pittero Gold</b> Photo. Den Pittero Gold. Super Ise is a soft lavender with yellow center. Vigorous. 10 cm pots.		160.00
O/o	<b>Dendrobium Benizuru 'Treasure'</b> Original plant is from CAL Orchids. Tall stems of off-white blooms always ready for show time! Flowering size divisions in 17.5cm pots.		350.00
O/o	<b>Dendrobium x delicatum</b> This is a natural hybrid between <i>kingianum</i> and <i>speciosum</i> . It is extremely vigorous, beautifully fragrant, blooms for the spring shows and makes excellent specimen plants! 9cm pots. Some larger plants available on request at R145.00		95.00
O/o	<b>Dendrobium Delicatum x speciosum</b> The old favourite, D x Delicatum put back onto the species D speciosum. Expect vigorous plants, blooming in spring with a hint of yellow to them. 12.5 and 15cm pots.		195.00
O/o	<b>Dendrobium King Zip Zippy</b> Den. Kathking x Den. Zip Small but vigorous plants in 8cm pots. Spring blooming. A few left...		95.00

O/o	<b>Dendrobium Baby Pink stripe</b> I have been growing this delightful orchid for many years and now have a few for sale. Some are potted and some mounted. All are vigorous. Limited.		150.00
10228 C&H	<b>Encyclia granitica x Enc. tampensis alba</b> (Photo. <i>Enc granica</i> ) Enc tampensis is known as the Florida Butterfly orchid and is brown/green with a delicate white lip with purple veining. Plants should be easy to grow and bloom. 9cm pots. 1 left.		250.00
E/o	<b>Epi. Miracle Valley Fujiyama</b> Near blooming size plants of this orange epi. 12cm pots.		250.00
O/o	<b>Epi. Pacific Heat</b> Orange clusters on the reed stem epi. Vigorous and free flowering. Near blooming size.		250.00
O/o	<b>Masdevallia Bella Valia</b> Really stunning bright orange with faint red lines. Quite large blooms. Summer time blooming. Near blooming size divisions in 9cm Disa pots. A few larger plants available at R450.		295.00
O/o	<b>Masdevallia Red Magic</b> Blooming size plants of this lovely dark red Masdevallia. Blooms summer time. 9cm Disa pots.		450.00

O/o	<p><b>Onc. Catatante Kilauea Karma x Onc. Thwaitessi (Onc <i>alexandrae</i> x Onc <i>tigrinum</i>)</b></p> <p>Photo is of the Onc Catatante. Expect tall stems with many blooms on them. Onc <i>tigrinum</i> looks like Hambuhren so expect yellows with a few blotches on them! 9cm pots.</p>		135.00
O/o	<p><b>Onc. Catatante Kilauea Karma x Burr. Dee Luce</b></p> <p>Photo Burr. Dee Luce. Expect tall stems that are darker than the Catatante above. 9cm pots.</p>		135.00
E/o	<p><b>Onc. Sharry Baby 'Red Fantasy'</b></p> <p>Coming from the next generation of fragrant Oncidiums bred from the original 'Chocolate Orchid' – Sharry Baby 'Sweet Fragrance'. This is a new clone which is a slightly darker red. Blooming size in 12.5cm pots.</p>		325.00
O/o	<p><b>Oncidium Camino Dorado x Vuyl. Cambria Plush</b></p> <p>Large blooming size divisions of an old favourite of mine. Blooms in summer with very tall stems with clouds of white and yellow blooms with a touch of cinnamon. Would look gorgeous in a bridal bouquet! Photo is similar to the actual plant, but a bit smaller. Stems up to 1 metre long! 15 and 17cm pots.</p>		325.00

O/o	<p><b>Tolumnia Jairak Firm 'Orange Bull' x self.</b></p> <p>Photo: Jairak Firm 'Orange Bull'</p> <p>Previously known as equitant Oncidiums these tiny plants can be called a specimen in a 7cm pot! They have a compact, clumping growth habit and produce flowers primarily in spring on long inflorescences that are branched on older plants. Expect a wide variety of colour forms. Basket pots.</p>		125.00
O/o	<p><b>Tolumnia Jairak Firm 'Orange Bull' x Jairak Rainbow 'Red Sun'</b></p> <p>Photo Jairak Rainbow 'Red Sun'</p> <p>Basket pots, blooming size.</p>		125.00
O/o	<p><b>Tolumnia Jairak Flyer 'Magic' x 'Golden Fan'</b></p> <p>Photo Jairak Flyer 'Magic'</p> <p>Basket pots, blooming size.</p>		125.00
/o	<p><b>Wilsonara Finial Fire 'Clown'</b></p> <p>This is a red Wilsonara will a tall branched spike. Really eyecatching. Blooming size, in bloom now December. 14cm pots.</p>		350.00
O/o	<p><b>Zygopetalum intermedia x Adelaide Meadows</b></p> <p>Really nice blooming size plants in 17.5cm pots. Tall stems, well held, flowers have a superb perfume!!</p>		350.00

## PHRAGMIPEDIUMS FROM ECUAGENERA

1568	<p><b><i>Phrag besseae</i></b></p> <p>Found on the eastern slopes of the Andes of Colombia, Ecuador and Peru as a small sized, cool growing terrestrial on cliff faces of riversides and on granite rocks. Dark green leaves are held in a fan shape that blooms in late winter and spring on a 1-4 successive flowered inflorescence. Stunning colours. Known as Mrs Besse's Phrag!</p>		920.00
E14	<p><b><i>Phrag hirtzii</i></b></p> <p>Found in Ecuador and Colombia as a medium sized, warm growing terrestrial on large boulders near watercourses. Blooms at any time of year on an erect 40cm long, 5 to 7 flowered inflorescence and has successively opening flowers held well above the plant. 9cm pots.</p>		750.00
2162	<p><b>Phrag Eric Young</b> <b>(<i>longifolium</i> x <i>besseae</i>)</b></p> <p>Phrag longifolium ensures vigorous growth, while besseae add colour. 9cm pots.</p>		750.00
2164	<p><b>Phrag Fritz Schomburg</b> <b>(<i>besseae</i> x <i>kovachii</i>) or (<i>kovachii</i> x <i>besseae</i>)</b></p> <p>Perhaps the best primary kovachii hybrid so far, Fritz Schomburg looks like a huge besseae hybrid with colours in purple to coral tones. 9cm pots. 1 left in 9cm Disa pot.</p>		1,145.00
2165	<p><b>Phrag Geralda</b> <b>(<i>lindleyanum</i> x <i>caudatum</i> var. <i>giganteum</i>)</b></p> <p>This hybrid originated by Mr Turner in 1899. It is exceedingly vigorous and makes a good specimen plant. 9 cm pots.</p>		1,145.00

1577	<p><b><i>Phrag humboltii Fortuna</i></b></p> <p>This orchid is on the red list of threatened species and is found in Costa Rica, Guatemala etc. Grows at an altitude of 1,500 – 1,600m. The number of adult plants continues to decrease in its natural habitat. This particular variety is found in the Fortuna forest reserve and is protected from collection. 12.5cm and 15cm pots.</p>		1,475.00
E17	<p><b><i>Phrag longifolium</i></b></p> <p>Found from Costa Rica to Ecuador on roadside banks as a medium to large sized, warm to cool growing terrestrial. It has an erect, 60 – 90cm long, several flowered inflorescence with 7 to 9 flowers opening in successions mostly in autumn but could be almost any time during the year. 9cm pots.</p>		750.00
E18	<p><b><i>Phrag pearcei</i></b></p> <p>A small sized, cool to warm growing terrestrial from Peru, Costa Rica and Ecuador growing near rivers and on boulders within rivers. It has no pseudobulbs but its growths are close together. There is a terminal, erect, 14cm long successive opening, multiflowered inflorescence that occurs in the summer and has non fragrant flowers. I find it easy to grow here on the Garden Route. 9cm pots.</p>		575.00
2176	<p><b>Phrag Peruflora's Angel (<i>kovachii x richteri</i>)</b></p> <p>This cross was a pleasant surprise for the breeder. Flowers exhibit a gorgeous variety from lavender to purple. 9cm pots.</p>		1,195.00
2177	<p><b>Phrag Peruflora's Cirila Alca (<i>kovachii x dalessandroi</i>)</b></p> <p>A nice hybrid producing flowers with different shades of fuschia. Temperature cool-intermediate. Light level low to medium. Blooming season varies. 9cm pots.</p>		920.00

E19	<p><b><i>Phrag reticulatum</i></b></p> <p>Found in Peru and Ecuador on steep embankments in very wet montane forests along rivers with rich black, well drained sandy soil. Blooms in late summer and autumn on an erect, 1 to 2 flowered inflorescence. 9cm pots.</p>		575.00
E20	<p><b><i>Phrag richteri</i></b> <b>(aka <i>P amazonica</i>)</b></p> <p>Found in Peru as a medium sized, cool to warm growing, natural hybrid terrestrial orchid with the parents of <i>Phragmipedium pearcii</i> and <i>boisserianum</i>. 9cm pots.</p>		1,150.00
2180	<p><b>Phrag Ruby Slippers</b> <b>(<i>besseae</i> x <i>caudatum</i>)</b></p> <p>Nice shape and besseae colour. 9cm pots. One large one left and 3x small at special price.</p>		1,100.00
1586	<p><b><i>Phrag warzewiczianum</i> var. <i>wallisii</i></b></p> <p>Hailing from Guatemala and named in 1852 in honour of the plant collector Josef Warszewicz, this phrag is one of the most spectacular members of the phrag species. 9 and 12.5cm pots.</p>		1,145.00
E22	<p><b><i>Phrag warszewiczianum</i> var <i>wallisii</i> x <i>Phrag humboldtii</i></b> <b>'Fortuna'</b></p> <p>Primary hybrid with two long petalled parents. Blooming size. 9cm Disa pots.</p>		920.00

### PAPHIOPEDILUM SPECIES

O/o	<b><i>Paph. gratrixianum</i></b> Found growing in leaf litter in south-eastern Laos and Northern Vietnam in evergreen cloud forests with no dry season and constant humidity. Produces an erect 25cm long, single flowered inflorescence that is autumn and early winter blooming. Easy to grow and bloom.		450.00
TSG	<b><i>Paph. henryanum</i></b> This species was only discovered in 1987. It occurs around the China and N Vietnamese border at 610-1400m. It is found as a lithophyte in semi-deciduous forests on limestone cliffs. Blooms on a single flowered, erect, long green to purple brown inflorescence in the autumn and winter.		450.00

O/o	<p><b><i>Paph insigne var Sanderae</i></b></p> <p>This is an intermediate to cool growing paph as it comes from fairly high elevations. It is also the yellow form of the species and lacks the spots of the type form. 9cm Disa pots.</p>		125.00
O/o	<p><b><i>Paph victoria-reginae</i></b></p> <p>This is a medium sized, warm to cool growing terrestrial from Sumatra. Successive blooming on many flowered inflorescence. 9cm Disa pots.</p>		o/s
TSG	<p><b><i>Paph villosum</i></b></p> <p>This cool growing paph is a delight to grow on the Garden Route. Blooms profusely towards the end of winter through to spring with long lasting glossy flowers and yellow green leaves. It forms clumps and is found in Assam India, Thailand, S China through to Vietnam. It carries a single flower.</p>		450.00

<b>BLACK POT 32cm round</b>	<b>75.00</b>
<b>BLACK POT 40cm round</b>	<b>100.00</b>

### **CARTER & HOLMES ORCHIDS**

My next order from Carter & Holmes should be August/September 2022 all going well. Due to ongoing Covid problems, I have been told that the airfreight is likely to increase threefold if I import this year. By then I am hoping that the Postal system will be up and running or otherwise airfreight will be easier than it is at present. You are welcome to request plants from their website for me to include in my 2022 order. Please note they are not able to send all plants on their website due to Cites restrictions.

## CONDITIONS

1. All prices are nett.
2. Mail orders are my speciality, I normally pack on a Monday or Tuesday. Please add 15% to value of the order to cover Dawn Wing door to door courier or wait for quote on Postnet courier which is likely to be less expensive. Please also add a packing charge of R60.00 per order.
3. **Note!** I use Dawn Wing Couriers for Door to Door, minimum cost is R250 or 15%. As we have a local Postnet, I am prepared to use them provided the parcels are small and under 3kg. R100 should cover it if less than 3kg and small in volume. They can be collected at your nearest Postnet depot. Large cymbidiums or other large plants may attract a higher courier fee than 15%.
4. All plants are all sent in their containers with the potting mix sealed into the pot. Large plants can be sent bareroot if requested in order to save money.
5. The nursery is open Wednesdays from 10am – 1pm. All other times by appointment. We are still open if Wednesday falls on a Public Holiday.
6. Payment should preferable be made by direct deposit to Outeniqua Orchids. Our account is with Nedbank, Stellenbosch branch code 107-110 (or universal), Account number 1071-257-633. Email copies of deposit slip to [stellrsa@mweb.co.za](mailto:stellrsa@mweb.co.za) WE DO NOT HAVE VISA FACILITIES! Please do not deposit cash – if you must do, please add R30.00 to cover bank costs.
7. Please note that this list cancels all other lists.
8. DIRECTIONS TO THE NURSERY FROM N2:-  
 ADDRESS: 34 Napier Street, Blanco. George, Western Province  
From Cape Town:  
 After Great Brak continue towards George. Take turnoff GEORGE AIRPORT/HEROLDS BAY. At bottom of off-ramp, turn left to the airport. You will pass entrance to airport on your left. At stop sign, continue straight over the old N2 – direction OUDTSHOORN. From this stop, continue a further 5km – at the end of this distance, you will have Fancourt Golf Estate main entrance on your right hand side – continue another 450m – turn right into Napier Street – continue nearly to the bottom, no. 34 is on the left hand side. The Yellow House is signposted...  
From Knysna:  
 Continue on N2 past George – Take turnoff left GEORGE AIRPORT/HEROLDS BAY – at bottom of off-ramp turn right to the airport. You will pass .....(see above).

## DENDROBIUM SPECIOSUM

var. 'Woodcroft'

This photo is just to show you what can be done with a *Dendrobium speciosum*.

This plant was imported from Australia 30 years ago and photographed in my shaded area in September 2014 with Robert looking on. Second photo taken in

2016 before our spring show – transported in a builder's lorry!

It received an Award of Cultural Merit at the Orchid Soc. of the Southern Cape Spring Show.

In the meantime Den speciosum var Compacta available f/size R450.00.

15cm pots of Den speciosum available at R275.00
