1st January 2022 – updated 1st April 2022

Dear Orchid Friends and Customers,

It's the beginning of December and we have recently had the news of the latest Covid variant, Omicron. My heart goes out to all in the tourist industry and to all those families affected by the travel ban which seems to be targeting South Africans in particular! My sister hasn't seen her son for 3 years now and his January trip is, of course, postponed indefinitely! At least we are still at Lockdown level 1, but for how long!

The orchid business has ticked over – good months when the lockdown was reduced and poor months when severe lockdown was imposed. At least people are still able to buy via mail order and everyone has to repot their plants sometime – so bark sales have been good. On that subject, I have just received a stunning consignment of fine bark chips, perfect for smaller plants. Not only that, the bags were dropped off at the nursery as part of a much bigger load of growing medium to be delivered elsewhere in George. What a pleasure.....

Society news has improved, we have had a number of meetings but no Christmas in winter lunch. We did have our Spring show at the usual venue but numbers were decidedly lower than previous years. Plant sales were unexpectedly good - so no complaints! We had fewer stands but the ones that exhibited were of very high quality. This Saturday we will have our Christmas lunch at the Hussar Grill so something to look forward to.

I have managed to obtain a number of new plants this year but am unable to import due to the many restrictions and the enormously increased cost of airfreight to bring the plants into South Africa. I will just have to wait a little longer.

Do read the descriptions on the new list – I have put the quantities left over if there are only a few in stock, sometimes only one, but if it is a nice plant, it's a pity not to offer it. I have also divided some of my own stock and they will be added as soon as they are rooted and ready to go.

I am still only open to the public on a Wednesday morning from 10am – 1pm, otherwise by appointment. It is still working very well supplying Norga River Nursery with the orchid mixes and flowering plants so don't forget you can pop in there if you need mix in a hurry. They are on the Airport Road 102, George.

Wishing you all the best for a fabulous and healthy orchid growing year in 2022!

TSG	<p><i>C. intermedia</i> var. <i>Orlata</i> Red</p> <p>Spring blooming easy to grow cattleya with a dark cerise lip. Blooming size plants in 12.5 cm pots.</p>		350.00
O/o	<p><i>C. intermedia</i> var <i>coerulea</i></p> <p>Blooming size plants of this blue form of C intermedia. Potted or mounted.</p>		325.00
J/H	<p><i>Coelogne cristata</i></p> <p>Epiphytic orchid from cool moist areas of E Himalayans and Vietnam. Blooms in spring. 12.5cm pots.</p>		175.00
O/o	<p><i>Coelogne dayana</i> (<i>pulverula</i>)</p> <p>This excecptional species is native to Malaysia, Sumatra areas and has incredible pendulous sprays of flowers that can be up to 4 feet (1.25metres) long. Blooming size divisions of own plant.</p>		495.00
O/	<p><i>Coelogne intermedia</i></p> <p>Found in southern India at fairly high elevations. Blooms in spring and summer on an 8-10 flowered inflorescence with fragrant flowers. 12.5cm pots.</p>		195.00

O/o	<p><i>Coelogue multiflora</i> Found in Sulawesi in lower montane forests as a large sized, cool growing epiphyte that blooms in winter on long, densely many flowered inflorescences that smell of fresh cut ginger root. 15cm pots R250 and 1x 20cm pot at R450.00</p>		250.00
O/o	<p><i>Dendrobium adae</i> Sympodial epiphyte or lithophyte found in northeastern Australia. Medium sized, cold to cool growing. Apical raceme has 2-6 fragrant flowers in spring.</p>		225.00
O/o	<p><i>Dendrobium crysocrepis</i> From China, this is a small sized, cool growing lithophyte that blooms in spring and summer on a slender, short single flowered inflorescence. From the Callista group.</p>		175.00
O/o	<p><i>Den. kingianum Lipstick Inferno 'Stan'</i> CCE/AM/SAOC Easy to grow Australian dendrobium species. This is a very good awarded clone and is very dark. It is warm growing lithophyte which blooms in spring and makes wonderful specimen plants. Dark lavender. 12.5cm pots.</p>		150.00 and 250.00
O/o	<p><i>Den kingianum (un-named grex)</i> 9cm pots of this delightful and easy to grow orchid.</p>		95.00
O/o	<p><i>Den kingianum var album</i> A wonderful mini Dendrobium from Australia with a sweet fragrance and unusual white color form. Easy to grow species not easily found. 10cm pots. Vigorous. Give a dry cool rest for at least 6 weeks in mid-winter. 9cm pots. Blooming size.</p>		150.00

O/o	<p><i>Dendrobium moniliforme</i> From China and surrounding countries, this medium sized, cool to warm growing epiphyte blooms from winter to end summer on a short, 2 flowered inflorescence with fragrant, rosy scented flowers. Deciduous.</p>		125.00
O/o	<p><i>Dendrobium moschatum</i> This orchid is native to the Himalayas, has tall canes and blooms in the summer with delicate apricot coloured blooms. Easy to grow and flower. 9cm Disa pots. 2 Larger plants available at R250 each.</p>		95.00
O/o	<p><i>Den mutabile</i> Found in India at 700m as a small sized, warm growing epiphyte blooming through the year and often twice. 4-15 flowered inflorescence.</p>		195.00
O/o	<p><i>Dendrobium nobile</i> This is the more common variety. A few plants in 10cm pots.</p>		95.00
A/o	<p><i>Den nobile var Cooksonii</i> From Chinese Himalayas this is a cool to hot growing terrestrial or lithophytic species. Blooms mostly in winter and spring with fragrant honey perfume. Blooms on leafed and leafless canes. Blooming size, mounted</p>		225.00

TSG	<p><i>Dendrobium parishii</i> Small to medium sized, hot to cool growing epiphyte with erect or downbent yellowish stems carrying deciduous leaves. Flowering occurs in summer with a 2 to 3 flowered raceme with fragrant long-lasting flowers smelling of raspberry. Reduce water in winter to give a rest prior to the following blooming season.</p>		275.00
A/o	<p><i>Dendrobium signatum</i> From Myanmar, Thailand, growing at 200-1500m as medium sized hot to cool epiphyte. Blooms in winter through to early summer on a short inflorescence with 2 flowers that are fragrant and long-lived. Mounted.</p>		200.00
O/o	<p><i>Den. speciosum</i> Found in N. S. Wales and Victoria in Australia at fairly low altitudes, this medium to large sized, cool to hot growing lithophyte likes good air movement and grows near rocks at the base of cliffs in open forests with good air movement. 18cm pots.</p>		450.00
O/	<p><i>Den. speciosum</i> Very vigorous, near blooming size plants. 15 cm pots</p>		295.00
A/o	<p><i>Dendrobium tortile</i> (Mtd) From India and surrounding areas, this small to medium sized, cool growing epiphyte blooms with a 2-3 flowered inflorescence in late winter.</p>		210.00
O/o	<p><i>Dendtrochilum arachnites</i> This is a species from the Philippines. In the wild this species grows in mossy and montane forests. Autumn blooming through to spring. Flowering size divisions in 9cm Disa pots.</p>		150.00

A/o	<i>Dendrochilum formosanum</i> The 'beautiful' dendrochilum! These warm to cool growing orchids prefer to grow in pots which are kept evenly moist at all times. 10 cm pots		150.00
O/o	<i>Dendrochilum wenzellii</i> (yellow) Also from CAL orchids, this is the yellow form of wenzellii. In a 9cm Disa pot.		150.00
	<i>Dendrochilum wenzellii</i> (red form) Red form of this delightful and easy growing dendrochilum. 9cm Disa pots.		150.00
O/o	<i>Epidendrum centropetalum</i> 9cm Disa pots of this attractive pink species – easy to grow and bloom. Just rooting. Available for mail order from March 2022.		95.00
A/o	<i>Epidendrum elongatum</i> Found only on Martinique in the Lesser Antilles as a sturdy, erect, hot to cool growing epiphyte or terrestrial. Blooms in spring and summer. 12.5cm pots		175.00
A/o	<i>Epidendrum quitensium</i> Easy growing floriferous reedstem Epi with 18" canes with closely spaced upward pointing leathery leaves, inflorescences as tall as 3' produce a circular head of continuously blooming solid purple flowers. 12.5cm pots.		175.00
O/o	<i>Epidendrum xanthinum</i> Found in Colombia and Brazil this is a large sized, cool growing terrestrial reedstem orchid that blooms in spring and fall on a 60cm long inflorescence with flowers clustered in a ball at the apex.		175.00

D/o	<p><i>Eria spicata</i> From China and the Western Himalayas this is a miniature, warm to cold growing epiphyte that blooms in spring and summer with a 12-18cm long inflorescence carrying 5-20 fragrant flowers which are white with a touch of pink in the centre. 9cm Disa pots.</p>		195.00
A/o	<p><i>Gongora galeata</i> Medium sized, Mexican epiphyte found in cloud forests at 600-800m. Blooms in summer and autumn with long, pendant, many flowered inflorescences with fragrant orange scented flowers. 10cm pots</p>		175.00
O/o	<p><i>Jumellia arachnantha</i> Found on the Comores Islands in forests as a medium sized, cool growing epiphyte which blooms in late spring with jasmine scented flowers. 3 large plants available.</p>		375.00
O/o	<p><i>Jumellea major</i> From N. Madagascar in montane forests this is a large sized, cool growing, epiphytic orchid with a thick flattened stem carrying a fan of 11 – 17 large, leathery, bilobed leaves. Blooms are scented at night. Large single fans, some with new growths, in 15cm square pots. B/size.</p>		250.00
O/o	<p><i>Laelia anceps</i> A few mounted plants, blooming size, various parents.</p>		300.00
O/o	<p><i>Laelia purpurata</i> var <i>Flammea</i> Colourful and fragrant blooms, hardy and easy to grow. Intermediate light required. 15cm pots.</p>		350.00

10176	<p><i>Laelia purpurata coerulea</i> 'Sweet Twilight' x <i>werkhauseri</i> 'Blue Sky' Expect a new generation of seedlings that will have petals either pure white or slightly smokey grey. Trumpet shaped lips will have colours from slate to hyacinth combined with a heady floral fragrance. 9cm pots. 1 left.</p>		355.00
10098	<p><i>Laelia purpurata</i> var. <i>venosa</i> 'Bella' AM/AOS x self Expect fine striations throughout the petals, sepals and lip. 9cm pots.</p>		355.00
O/0	<p><i>Laelia purpurata</i> 'Violetta x Flammea' Blooming size plants growing in 17.5cm green pots. Very vigorous. All large blooming size.</p>		495 .00
9982	<p><i>Laelia rubescens</i> (alba x aurea) x sib This hard to find species is native to Mexico and through Central America. Plants have rounded, short pseudobulbs with thick foliage. Tall stems emerge after the summer. Flowers will be creamy off-white with black 'eyes'. 8cm.</p>		420.00
E26	<p><i>Masdevallia delhierroi</i> red From Ecuador, dark red flowers and held just above the foliage. 1 left.</p>		Out of stock
E27	<p><i>Masdevallia herradurae</i> Found in Colombia and Ecuador where it grows on mossy trees at about 500m. It is a mini-miniature sized, cool growing epiphyte. Flowers smells of stale coconut and are held at or below leaf height. Very floriferous and can bloom on old leaves. 8cm pots.</p>		225.00

E29	<p><i>Masdevallia murex</i> Found in the Ecuadorian and Peruvian cloud forests, this miniature sized epiphyte likes high humidity and even year round waterings. 4cm stems carry purple suffused, solitary flower at or below leaf height occurring in the summer.</p>		285.00
E30	<p><i>Masdevallia peristeria</i> Small sized, cool to cold growing Colombian or Ecuadorian epiphytic or terrestrial species found in open woodlands. 9cm stems carry pale green, spotted with crimson inflorescences.</p>		275.00
O/o	<p><i>Masdevallia rolfeana</i> Nice divisions of this easy to grow Masdevallia.</p>		225.00
E36	<p><i>Masdevallia striatella</i> Mini-miniature species from Costa Rica, Panama etc. Grows in lower montane cloud forests on tree trunks. Blooms on erect, 7cm long, successive solitary flowered inflorescence holding a single flower and occurring in the autumn and early winter. 1 left</p>		275.00
O/o	<p><i>Masdevallia towarensis</i> 'Puffin' Original plant from J & L Orchids. Reliable bloomer every year, lovely white blooms.</p>		275.00
O/o	<p><i>Maxillaria sophronitis</i> Found in Venezuela and NE Colombia as a dwarf sized, mat forming, cool to warm growing species that blooms in early winter with a single flowered orange/red inflorescence. 9cm pots.</p>		125.00

O/o	<p><i>Maxillaria lehmanii</i> Found in Western Ecuador and Peru in wet montane cloud forests as a warm to cool growing epiphyte. Blooms in spring and summer on 20cm long, single flowered inflorescence arising on a mature pseudobulb. Grows and flowers well on the Garden Route. 12.5cm pots.</p>		350.00
O/o	<p><i>Maxillaria tenuifolia</i> This warm growing epiphyte is found from Mexico to Costa Rica. It has an ascending growth habit and flowers form on mature pseudobulbs during spring and summer. Commonly known as the 'coconut orchid' due to its strong scent. 9cm pots.</p>		125.00
O/o	<p><i>Maxillaria variabilis</i> Found in Mexico and surrounding countries in humid forests as a small sized, warm to cool growing, solitary leafed species. Single flowered inflorescence with variable coloured, long lasting blooms. 9cm pots.</p>		150.00
O/o	<p><i>Miltonia spectabilis</i> A few trays available of this easy to grow Brazilian species. Autumn blooming.</p>		175.00
D/o	<p><i>Neobenthamia gracilis</i> Found in Tanzania as a giant sized, hot to warm growing terrestrial or lithophyte from 380-2000. It has a 12.5cm inflorescence with fragrant flowers held in a spherical head. 9cm pots.</p>		95.00

O/o	<p><i>Oncidium sphacelatum</i> Delightful, easy to grow species which blooms in mid-summer with long spikes and many yellow/brown blooms. 15cm pots.</p>		150.00
O/o	<p><i>Phragmipedium humboldtii</i> Small sized humus epiphyte with a short stem and medium to dark green leaves that blooms in spring and summer with a 25cm long, 2 – 4 simultaneous flowered inflorescence holding flowers well above the leaves. 1x15cm pot, near blooming size.</p>		850.00
O/o	<p><i>Phragmipedium longifolium</i> Found in Costa Rica, Panama etc on roadside banks as medium to large sized warm to cool growing terrestrial in shaded areas with thin soil. 60cm long stems with deep purple to green several flowered inflorescence with 7 – 9 flowers opening in succession mostly in autumn. Blooming size in 15 cm pots.</p>		795.00
O/o	<p><i>Prosthechea baculus</i> From Mexico, Guatemala and surrounding countries, this medium sized intermediate grower of the cockleshell species, blooms in spring and summer with fragrant, honey smelling, inverted flowers. Near blooming size.</p>		250.00
O/o	<p><i>Prosthechea prismatocarpa</i> Found in Costa Rica and Panama, this cool growing epiphyte carries bright, long lasting flowers in spring and summer. 10cm pots.</p>		260.00

O/o	<p><i>Prosthecea vespa</i> One plant available in 15cm pot, division of own plant. B/size</p>		275.00
A/o	<p><i>Restripia brachypus</i> From Venezuela and Peru areas in wet montane forests this miniature cool to cold growing epiphyte carries a single, broad leaf that blooms on a terminal single flowered inflorescence in winter and spring. Mesh pots, blooming size.</p>		160.00
CSB	<p><i>Sobralia macrantha alba</i> 'Angelique' This orchid was discovered in 1841 and is very easy to grow in cultivation. The flowers are large and pristine white arising from terminal inflorescences and lasting 1-2 days. The flowers open successively so plants can remain in bloom for a long period. Very lrg plants.</p>		Out of stock
CSB	<p><i>Sobralia macrantha</i> A large sized terrestrial, intermediate growing species from Mexico and surrounding countries. Flowers occur from spring till autumn with fragrant, short-lived flowers.</p>		Out of stock
O/o	<p><i>Stelis micrantha</i> Found in the region of Colombia, Venezuela etc, this is a miniature sized hot to cool growing epiphyte that blooms in winter and spring with a many flowered inflorescence. 8cm pots.</p>		95.00
D/o	<p><i>Stelis vulcanica</i> These epiphytic orchids are widely distributed throughout much of S America. The stems are upright with 8-10 tiny maroon flowers. Vigorous. Flower size many times magnified!</p>		195.00

TSG	<p><i>Vanda falcata</i> – white</p> <p>This orchid comes from Japan and Korea and is a warm to cool grower found in areas that have a shady summer. Inflorescences appear in early summer with nocturnal fragrant flowers. Miniature growing. 8cm pots.</p>		345.00
O/o	<p><i>Zygopetalum mackayi</i></p> <p>Blooming size plants of this Brazilian terrestrial species. It has fragrant, waxy, long lived flowers in autumn and winter. 5-8 blooms per inflorescence. 15cm pots.</p>		300.00

R75.00 per bag.

**OTHER GENERA – HYBRIDS AND MERICLONES FROM CARTER AND HOLMES
AND OTHER SUPPLIERS**

Code	Description		Price
O/o	Angraecum Veitchii 'White Star' Originally from Hausermann's Orchids. I have now divided my original plant into large fan divisions, all blooming size. The cross is <i>Ang sesquipedale</i> x <i>Ang eburneum</i> . This is an intermediate grower and blooms for me every year without fail, usually just before show time, but lasts well. Large fan in 20cm pot.		595.00
9981 C&H	Bifrenaria Fuersten Mountain (<i>Bifrenaria inodora</i> x <i>harrisoniae</i>) Interesting cross from Carter and Holmes of the light green/lavender lipped <i>B. inodora</i> with <i>B harrisoniae</i> (see photo). Need winter rest, blooms in early summer for shows. Blooming size plants in 15cm pots.		220.00
O/o	Brassia Chieftain (<i>verrucosa</i> x <i>arcuigera</i>) This primary hybrid registered by W Moir in 1961.		225.00
O/o	Brassia Eternal Wind 'Summer Dream' (<i>Bracdiana</i> x <i>Rex</i>) This epiphytic orchid is native to Central and South America.		250.00
O/o	Brassia Rex (<i>Br verrucosa</i> x <i>Br gireoudiana</i>). This primary hybrid originated by W W Moir in 1964. Very easy to grow and bloom. Flowering size divisions.		250.00

O/o	Bratonia Lavender Kiss 'Lavender Taffy' (Brat. Shelob x Brat Charles M. Fitch) Flowering size plants – in bud now – in 15cm pots. Vigorous and free flowering. Light pink blooms and purple cheetah spots that are sure to please!		350.00
M/B	Bulbophyllum Elizabeth Ann 'Buckleberry' Got a few divisions of a good clone from Mike Byren a couple of months ago.		175.00
O/o	Calanthe William Murray This deciduous orchid has racemes of showy flowers with three lobed lips which appear on erect stems in spring, summer or winter. 2 x 10cm pots.		150.00
O/	Den. Super Ise x Pittero Gold Photo. Den Pittero Gold. Super Ise is a soft lavender with yellow center. Vigorous. 10 cm pots.		160.00
O/o	Dendrobium Benizuru 'Treasure' Original plant is from CAL Orchids. Tall stems of off-white blooms always ready for show time! Flowering size divisions in 17.5cm pots.		350.00
O/o	Dendrobium Dal's Hope x Anna Bibus Large plants of this Dendrobium phalaenopsis type orchid. Autumn blooming, very floriferous and rewarding. Limited.		450.00
O/o	Dendrobium x delicatum This is a natural hybrid between <i>kingianum</i> and <i>speciosum</i> . It is extremely vigorous, beautifully fragrant, blooms for the spring shows and makes excellent specimen plants! 9cm pots. Some larger plants available on request at R145.00		95.00

O/o	Dendrobium Delicatum x speciosum The old favourite, D x Delicatum put back onto the species D speciosum. Expect vigorous plants, blooming in spring with a hint of yellow to them. 12.5 and 15cm pots.		195.00
O/o	Dendrobium King Zip Zippy Den. Kathking x Den. Zip Small but vigorous plants in 8cm pots. Spring blooming. A few left...		95.00
O/o	Epi. Lorraine Smith x (E alatum x Cashews Brown Sugar) Delightful epi which blooms towards the end of summer with multiple tall stems. Rewarding and easy to grow. Like good light and a well-drained mix. 14cm pots of blooming size plants.		350.00
E/o	Epi. Miracle Valley Fujiyama Near blooming size plants of this orange epi. 12cm pots.		250.00
O/o	Epi. Pacific Heat Orange clusters on the reed stem epi. Vigorous and free flowering. Near blooming size.		250.00

O/o	Masdevallia Bella Valia Really stunning bright orange with faint red lines. Quite large blooms. Summer time blooming. Near blooming size divisions in 9cm Disa pots. A few larger plants available at R450.		295.00
O/o	Masdevallia Kimballiana Yellow <i>(Masd caudata x veitchiana)</i> This is a very rare and special orchid. Divisions of own plant from CAL orchids. 9cm Disa Pots.		295.00
O/o	Masdevallia Red Magic Blooming size plants of this lovely dark red Masdevallia. Blooms summer time. 9cm Disa pots.		295.00
O/o	Miltonia Invisible Man An ideal plant for the garden that grows vigorously and flowers well producing many one flowered inflorescences. Dark purple-plum wine colouring. Near blooming size plants.		175.00
O/o	Miltonidium Carnivale Okika <i>(Oncidium Wally x Miltonia Guanabara)</i> Flowering size plants – some in bud – available in 15cm pots. Very easy to grow and bloom. Very strong colour!		350.00
O/o	Onc. Catatante Kilauea Karma x Onc. Thwaitessi (Onc alexandrae x Onc tigrinum) Photo is of the Onc Catatante. Expect tall stems with many blooms on them. Onc <i>tigrinum</i> looks like Hambuhren so expect yellows with a few blotches on them! 9cm pots.		135.00

O/o	<p>Onc. Catatante Kilauea Karma x Burr. Dee Luce Photo Burr. Dee Luce. Expect tall stems that are darker than the Catatante above. 9cm pots.</p>		135.00
E/o	<p>Onc. Sharry Baby 'Red Fantasy' Coming from the next generation of fragrant Oncidiums bred from the original 'Chocolate Orchid' – Sharry Baby 'Sweet Fragrance'. This is a new clone which is a slightly darker red. Blooming size in 12.5cm pots.</p>		350.00
O/o	<p>Oncidium Camino Dorado x Vuyl. Cambria Plush Large blooming size divisions of an old favourite of mine. Blooms in summer with very tall stems with clouds of white and yellow blooms with a touch of cinnamon. Would look gorgeous in a bridal bouquet! Photo is similar to the actual plant, but a bit smaller. Stems up to 1 metre long! 15 and 17cm pots.</p>		295.00
O/o	<p>Oncostele Wildcat Well known hybrid of Oncostele Rustic Bridge x Oncidium Crowborough produces branching stems of colourful blooms. Blooming size plants in 14cm pots.</p>		350.00
O/o	<p>Prosthechea Beacon Fire This is the cross of Psh. Vitellina and Psh. Baculus. It is a primary hybrid. Just two divisions of my own plant available in 17cm pots.</p>		350.00

O/o	Rossioglossom Rawdon Jester <i>(Odontoglossum grande x Williamsianum)</i> . This unusual and exotic orchid requires good light and a well drained medium. Blooms late summer with well held flowers which are long lasting. Near blooming size in 12cm pots.		450.00
O/o	Tolumnia Jairak Firm 'Orange Bull' x self. Photo: Jairak Firm 'Orange Bull' Previously known as equitant Oncidiumums these tiny plants can be called a specimen in a 7cm pot! They have a compact, clumping growth habit and produce flowers primarily in spring on long inflorescences that are branched on older plants. Expect a wide variety of colour forms. Basket pots.		125.00
O/o	Tolumnia Jairak Firm 'Orange Bull' x Jairak Rainbow 'Red Sun' Photo Jairak Rainbow 'Red Sun' Basket pots, blooming size.		125.00
O/o	Tolumnia Jairak Flyer 'Magic' x 'Golden Fan' Photo Jairak Flyer 'Magic' Basket pots, blooming size.		125.00
/o	Wilsonara Finial Fire 'Clown' This is a red Wilsonara will a tall branched spike. Really eye-catching. Blooming size, in bloom now December/January. 14cm pots.		250.00
O/o	Zygopetalum intermedia x Adelaide Meadows Really nice blooming size plants in 17.5cm pots. Tall stems, well held, flowers have a superb perfume!!		350.00

O/0	Zygopabstia Dragon Kitten ‘Patches’ (Zygo Artur Elle x Zygopabstia Blue Ribbon). A strong, vigorous grower, much faster than the Zygopetalums in general. The flowers have a green base colour with brownish splotches over the top. Very big plants in 18cm buckets. Flowering size.		550.00
-----	--	--	--------

PHRAGMIPEDIUMS FROM ECUAGENERA

1568	<i>Phrag besseae</i> Found on the eastern slopes of the Andes of Colombia, Ecuador and Peru as a small sized, cool growing terrestrial on cliff faces of riversides and on granite rocks. Dark green leaves are held in a fan shape that blooms in late winter and spring on a 1-4 successive flowered inflorescence. Stunning colours. Known as Mrs Besse’s Phrag!		920.00
E14	<i>Phrag hirtzii</i> Found in Ecuador and Colombia as a medium sized, warm growing terrestrial on large boulders near watercourses. Blooms at any time of year on an erect 40cm long, 5 to 7 flowered inflorescence and has successively opening flowers held well above the plant. 9cm pots.		750.00
2162	Phrag Eric Young (<i>longifolium</i> x <i>besseae</i>) Phrag longifolium ensures vigorous growth, while besseae add colour. 9cm pots.		750.00
2164	Phrag Fritz Schomburg (<i>besseae</i> x <i>kovachii</i>) or (<i>kovachii</i> x <i>besseae</i>) Perhaps the best primary kovachii hybrid so far, Fritz Schomburg looks like a huge besseae hybrid with		1,145.00

	colours in purple to coral tones. 9cm pots. 1 left in 9cm Disa pot.		
2165	Phrag Geralda <i>(lindleyanum x caudatum var. giganteum)</i> This hybrid originated by Mr Turner in 1899. It is exceedingly vigorous and makes a good specimen plant. 9 cm pots.		1,145.00
1577	Phrag humboltii Fortuna This orchid is on the red list of threatened species and is found in Costa Rica, Guatemala etc. Grows at an altitude of 1,500 – 1,600m. The number of adult plants continues to decrease in its natural habitat. This particular variety is found in the Fortuna forest reserve and is protected from collection. 12.5cm and 15cm pots.		1,475.00
E17	Phrag longifolium Found from Costa Rica to Ecuador on roadside banks as a medium to large sized, warm to cool growing terrestrial. It has an erect, 60 – 90cm long, several flowered inflorescence with 7 to 9 flowers opening in successions mostly in autumn but could be almost any time during the year. 9cm pots.		750.00
E18	Phrag pearcei A small sized, cool to warm growing terrestrial from Peru, Costa Rica and Ecuador growing near rivers and on boulders within rivers. It has no pseudobulbs but its growths are close together. There is a terminal, erect, 14cm long successive opening, multiflowered inflorescence that occurs in the summer and has non fragrant flowers. I find it easy to grow here on the Garden Route. 9cm pots.		575.00
2176	Phrag Peruflora's Angel <i>(kovachii x richteri)</i> This cross was a pleasant surprise for the breeder. Flowers exhibit a gorgeous variety from lavender to purple. 9cm pots.		1,195.00

2177	Phrag Peruflora's Cirila Alca (kovachii x dalessandroi) A nice hybrid producing flowers with different shades of fuschia. Temperature cool-intermediate. Light level low to medium. Blooming season varies. 9cm pots.		920.00
E19	Phrag reticulatum Found in Peru and Ecuador on steep embankments in very wet montane forests along rivers with rich black, well drained sandy soil. Blooms in late summer and autumn on an erect, 1 to 2 flowered inflorescence. 9cm pots.		575.00
E20	Phrag richteri (aka P amazonica) Found in Peru as a medium sized, cool to warm growing, natural hybrid terrestrial orchid with the parents of Phragmipedium pearcii and boisserianum. 9cm pots.		1,150.00
2180	Phrag Ruby Slippers (besseae x caudatum) Nice shape and besseae colour. 9cm pots. One large one left and 3x small at special price.		1,100.00
O/o	Phrag Sedenii (longifolium x schlimii) A great old hybrid made in 1873. This Phrag is easy to grow and can often bloom twice a year. Blooming size divisions in 12.5cm pot		350.00

1586	<p><i>Phrag warzewiczianum</i> var. <i>wallisii</i></p> <p>Hailing from Guatemala and named in 1852 in honour of the plant collector Josef Warscewicz, this phrag is one of the most spectacular members of the phrag species. 9 and 12.5cm pots.</p>		1,145.00
E22	<p><i>Phrag warszewiczianum</i> var <i>wallisii</i> x <i>Phrag humboldtii</i> 'Fortuna'</p> <p>Primary hybrid with two long petalled parents. Blooming size. 9cm Disa pots.</p>		920.00

GREEN POT 35cm nursery	40.00
BLACK POT 32cm round	75.00
BLACK POT 40cm round	100.00

CONDITIONS

1. All prices are nett.
2. Mail orders are my speciality, I normally pack on a Monday or Tuesday. Please add 15% to value of the order to cover Dawn Wing door to door courier or wait for quote on Postnet courier which is likely to be less expensive. Please also add a packing charge of R60.00 per order.
3. **Note!** I use Dawn Wing Couriers for Door to Door, minimum cost is R250 or 15%. As we have a local Postnet, I am prepared to use them provided the parcels are small and under 3kg. R100 should cover it if less than 3kg and small in volume. They can be collected at your nearest Postnet depot. Large cymbidiums or other large plants may attract a higher courier fee than 15%.
4. All plants are all sent in their containers with the potting mix sealed into the pot. Large plants can be sent bareroot if requested in order to save money.
5. The nursery is open Wednesdays from 10am – 1pm. All other times by appointment. We are still open if Wednesday falls on a Public Holiday.
6. Payment should preferable be made by direct deposit to Outeniqua Orchids. Our account is with Nedbank, Stellenbosch branch code 107-110 (or universal), Account number 1071-257-633. Email copies of deposit slip to stellrsa@mweb.co.za WE DO NOT HAVE VISA FACILITIES! Please do not deposit cash – if you must do, please add R30.00 to cover bank costs.
7. Please note that this list cancels all other lists.
8. DIRECTIONS TO THE NURSERY FROM N2:-
 ADDRESS: 34 Napier Street, Blanco. George, Western Province
From Cape Town:
 After Great Brak continue towards George. Take turnoff GEORGE AIRPORT/HEROLDS BAY. At bottom of off-ramp, turn left to the airport. You will pass entrance to airport on your left. At stop sign, continue straight over the old N2 – direction OUDTSHOORN. From this stop, continue a further 5km – at the end of this distance, you will have Fancourt Golf Estate main entrance on your right hand side – continue another 450m – turn right into Napier Street – continue nearly to the bottom, no. 34 is on the left hand side. The Yellow House is signposted...
From Knysna:
 Continue on N2 past George – Take turnoff left GEORGE AIRPORT/HEROLDS BAY – at bottom of off-ramp turn right to the airport. You will pass(see above).

DENDROBIUM SPECIOSUM

var. 'Woodcroft'

This photo is just to show you what can be done with a *Dendrobium speciosum*.

This plant was imported from Australia 30 years ago and photographed in my shaded area in September 2014 with Robert looking on. Second photo taken in 2016 before our spring show – transported in a builder's lorry!

It received an Award of Cultural Merit at the Orchid Soc. of the Southern Cape Spring Show.

In the meantime Den speciosum var Compacta available f/size R450.00.
15cm pots of Den speciosum available at R295.00
