1st July 2024

Dear Orchid Friends and Customers,

We are nearly at the end of June and have just had over 130mm of rain in two days just 10 days ago, resulting in heavy flooding in the Garden Route area. Luckily we weren't as bad as Oudtshoorn and further afield in Gqeberha..... This is the second cut off low in 3 months and the George Dam is full and overflowing!

The plant sale was very effective and is mostly sold out. Here and there you will see a few red prices. I have added a few more divisions from my own collection but they are of limited quantities. It is possible that I won't update this list until the new stock arrives from overseas in August and September. I will be placing one or two large orders with vendors who are coming to the National Show at the end of September this year so expect some exciting new plants on the October list. I am particularly excited about adding more mini Cattleyas to the list – they don't take too much space in one's nursery and can even bloom more than once a year.

Some other news is that I have been appointed as a Director of the South African Orchid Council and I hope to be effective in adding to their membership and helping to add to the Council's finances by organising fun events and auctions. The 4 Societies under my wing are all in the Western Cape:- Orchid Soc. Of S Cape, Walker Bay Society, Cape Orchid Society and the Tygerberg Orchid Society. I hope to visit all of them before the end of the year. I have already given my first talk to my local Society and I think it went down well.

Please note that I am having great success with growing a number of genera in Air Pots so I have decided to stock and sell them. I know that they are expensive but the results speak for themselves. Photo and prices within the list on page 40.

My new complex Paphiopedilums are looking good and all rooted and ready for their new homes. All are blooming size for 2024. More will arrive at the end of this year.

I am still only open to the public on a Wednesday morning from 10am – 1pm, otherwise by appointment. Address is 34 Napier Str, Blanco, George. I have included another email address in the details above if needed - stellrsa@mweb.co.za.

Happy growing!! Our show dates for the Orchid Society of the Southern Cape are Thursday 12th to Saturday 14th September. Usual venue of Presbyterian Church Hall in Caledon Street, George.

Else

O/o	<p><i>Laelia anceps lineata x sib</i> A few plants of this delightful, easy to grow, Mexican species. Near blooming size.</p>		325.00
O/o	<p><i>Laelia anceps</i> New group of blooming sized Laelia anceps. Various shades of lavender. Good shape and well marked lips.</p>		350.00
O/o	<p><i>Laelia (Cattleya) purpurata var Flammea</i> Colourful and fragrant blooms, hardy and easy to grow. Intermediate light required. 15cm pots.</p>		350.00
O/o	<p><i>Laelia (Cattleya) purpurata (Mandayana x Russeliana)</i> Photo is of var Mandayana and the plant is blooming very similar to this. One large division in an Air Pot.</p>		450.00

O/o	<p><i>Laelia (Cattleya) purpurata var russeliana</i></p> <p>An interesting colour form with white petals and sepals and a yellow centre with radiating pink lines coming half way down the lip. 10cm pot.</p>		450.00
O/o	<p><i>Laelia (Cattleya) purpurata var Violacea</i></p> <p>Mounted plants of this lovely variety.</p>		375.00
E27	<p><i>Masdevallia herradurae</i></p> <p>Found in Colombia and Ecuador where it grows on mossy trees at about 500m. It is a mini-miniature sized, cool growing epiphyte. Flowers smells of stale coconut and are held at or below leaf height. Very floriferous. 8cm pots.</p>		150.00
O/o	<p><i>Maxillaria calichroma</i></p> <p>Blooming size divisions of this lovely plants from the van der Hovens. One left.</p>		195.00
O/o	<p><i>Maxillaria sophronitis</i></p> <p>Found in Venezuela and NE Colombia as a dwarf sized, mat forming, cool to warm growing species that blooms in early winter with a single flowered orange/red inflorescence. 9cm pots.</p>		125.00
O/o	<p><i>Maxillaria tenuifolia</i></p> <p>This warm growing epiphyte is found from Mexico to Costa Rica. It has an ascending growth habit and flowers form on mature pseudobulbs during spring and summer. Commonly known as the 'coconut orchid' due to its strong scent. 9cm pots.</p>		125.00

O/o	<p><i>Maxillaria variabilis</i> Found in Mexico and surrounding countries in humid forests as a small sized, warm to cool growing, solitary leafed species. Single flowered inflorescence with variable coloured, long lasting blooms. 12cm pot</p>		250.00
O/o	<p><i>Oncidium flexuosum</i> Found in South America including Brazil and Argentina. Has a tall, many flowered inflorescence with tiny yellow flowers. Makes a nice specimen plant. 14cm Airpots.</p>		250.00
O/o	<p><i>Oncidium sphacelatum</i> Delightful, easy to grow species which blooms in mid-summer will long spikes and many yellow/brown blooms. 15cm pots. Some larger ones available in Airpots at R300.00</p>		150.00
O/o	<p><i>Phragmipedium longifolium</i> Found in Costa Rica, Panama etc on roadside banks as medium to lrg sized warm to cool growing terrestrial in shaded areas with thin soil. 60cm long stems with deep purple to green several flowered inflorescence with 7 – 9 flowers opening in succession mostly in autumn. Blooming size in 15 cm pots.</p>		795.00
O/o	<p><i>Platystele consobrina</i> This is an epiphytic orchid primarily from Colombia. It grows in a wet tropical biome. It blooms in the spring with many 7 mm wide flowers. I have known mine to bloom twice a year. 7cm pots.</p>		100.00
O/o	<p><i>Prosthecea guttata</i> Found from Mexico through to Guatamala, this is a pseudobulbous geophyte and grows primarily in the wet tropical biome. 12.5cm pots.</p>		250.00

O/o	<p><i>Prosthecea vespa</i> Large division of own plant in a 17.5cm pot – blooming size.</p>		395.00
A/o	<p><i>Sobennikoffia humbertiana</i> Found only in Madagascar growing among rocks as a semilithophytic vandaceous orchid. Just one left.</p>		375.00
O/o	<p><i>Sobralia macrantha</i> This orchid is commonly known as the 'large-flowered sobralia' and is found from Mexico to Central America. It is an exotic terrestrial with bamboo like stems and veined leaves. Large blooming size plants. Blooms in mid summer.</p>		350.00
O/o	<p><i>Sobralia macrantha var alba 'Angelique'</i> I have been lucky enough to obtain more of these exceptional white Sobralias – the original plants were from CAL orchids in California. Water well in summer but allow to dry slightly between waterings. For some reason my chameleons love them!</p>		550.00
O/o	<p><i>Stanhopea dodsoniana</i> The native range of this species is Central & S Mexico to Honduras. It is a pseudobulbous epiphyte and grows primarily in the seasonally dry tropical biome. Growing in moss balls.</p>		395.00
O/o	<p><i>Stanhopea occulata</i> Native to South and Central America, this species blooms with multiple flowers from each spike. Like most Stanhopea, these are fragrant as well! Moss balls.</p>		350.00

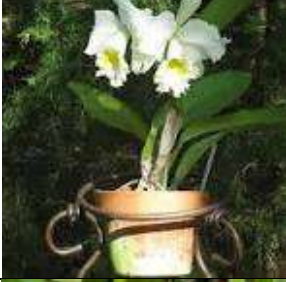

O/o	<i>Stanhopea nigroviolacea</i> This is one of the largest flowering Stanhopea with an incredible strong and sweet fragrance. The flowers last about 3 – 5 days. Very difficult to come by, there is only one available in a moss ball.		Sold out
O/o	<i>Vanda falcata 'Mendenhall'</i> Mature plant in 1.5 litre airpot. 1 only		450.00
A/o	<i>Vanilla planifolia</i> This is a terrestrial or epiphytic orchid vine that is native to Mexico and is one of the most sought after spices in cultivation. It is cultivated for its long slender pods that are essential in the making of vanilla. Mature plants.		350.00

O/o	Coelogne Unchained Melody <i>(Coelogne cristata x Coelogne flaccida)</i> A wonderful Coelogne hybrid that has been incorrectly identified as Coel. Mooreana on some internet sites. This great hybrid from the Himalayan group of species is a very fast grower that produces lots of flowers in showy cascades. 12.5cm pots.		Sold out

O/o	Cymbidium Cape Ruby Glow Blooming size plants of this delightful miniature. Just 2 left.		495.00
O/o	Cymbidium Hypno Beauty Stunning standard sized flowers for June/July. Dark pink/reds. A must for every collection. Blooming size and in bloom now. 15cm pots.		550.00
O/o	Cymbidium Khaipour 'Symmetry' Exquisite intermediate type Cymbidium which blooms for spring shows and has semi-pendulous flower habit. Vigorous – near blooming size plants in 15cm pots.		425.00
O/o	Cymbidium Miss Muffett A few divisions available of my own plants originally obtained from Burnham's Nursery in England – many years ago! Bloom every year!		450.00
O/o	Cymbidium Wallara Golden Ball Another standard yellow with large blooms for mid-late winter. Near blooming size plants available in 16cm pots.		295.00

O/o	Dendrobium Andrew Perrson This is a cross of <i>D speciosum</i> x <i>D falcorostrum</i> as its parents. Blooming size plants arriving in September. At present just one available.		350.00
O/o	Dendrobium Berry This cross is D kingianum x D 'Mini Pearl'. (Mini Pearl was created by crossing D canaliculatum with bigibbum). Just as easy to grow as D kingianum but has lots of blooms, generally for show time in the spring. 9cm Disa pots available.		95.00
O/o	Dendrobium Brisbane River Very vigorous, well grown plants of this easy to grow hybrid. Blooming size in 12.5cm pots. Flower colour can vary slightly as it is a hybrid.		495.00
O/o	Dendrobium x delicatum This is a natural hybrid between <i>kingianum</i> and <i>speciosum</i> . It is extremely vigorous, beautifully fragrant, blooms for the spring shows and makes excellent specimen plants! 9cm pots. Also some very large plants at R350.00		95.00 – 350.00
O/o	Den. Enobi 'Purple Splash' Easy to grow dendrobium in a 9cm Disa Pot. Blooming size.		150.00
O/o	Den hercoglossum x parishii 9cm Disa pots of near blooming size plants. Photo of D hercoglossum. Easy to grow and bloom.		95.00

O/o	Den Wonderful Romance 9cm Disa pots of this attractive Den nobile hybrid. Blooming size.		275.00
O/o	Enc. Lorraine Smith x (E. alatum x Cashews Brown Sugar) Delightful epi which blooms towards the end of summer with multiple tall stems. Rewarding and easy to grow. Like good light and a well-drained mix. 14cm pots of blooming size plants.		275.00
E/o	Epi. Miracle Valley Fujiyama Near blooming size plants of this orange epi. 12cm pots.		250.00
O/o	Epi. Pacific Heat Orange clusters on the reed stem epi. Vigorous and free flowering. Blooming size.		250.00
O/o	Epi. Wedding Valley Grow in part or full sun. Great in pots. Grow in bark for good drainage. Wonderful large pink flowers in decorative clusters. Blooming size.		325.00

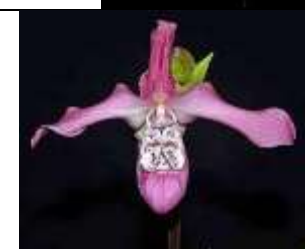

O/o	<p>Masdevallia Bella Valia Really stunning bright orange with faint red lines. Quite large blooms. Summer time blooming. Near blooming size divisions in 9cm Disa pots.</p>		275.00
O/o	<p>Masdevallia Red Magic Blooming size plants of this lovely dark red Masdevallia. Blooms summer time. 9cm Disa pots.</p>		275.00
O/o	<p>Oerstedella Dainty Lady Compact plants with fragrant, dainty lavender blooms.</p>		275.00
O/o	<p>Onc. Catatante Kilauea Karma x Onc. Thwaitessi (Onc alexandrae x Onc tigrinum) Photo is of the Onc Catatante. Expect tall stems with many blooms on them. Onc tigrinum looks like Hambuhren so expect yellows with a few blotches on them! 12.5cm pots blooming size.</p>		295.00
E/o	<p>Onc. Sharry Baby 'Red Fantasy' Coming from the next generation of fragrant Oncidiums bred from the original 'Chocolate Orchid' – Sharry Baby 'Sweet Fragrance'. This is a new clone which is a slightly darker red. Blooming size in 12.5cm pots.</p>		375.00
O/o	<p>Oncostele Wildcat 'Bobcat' (Odontonia Rustic Bridge x Odontocidium Crowborough). This mericlone is an intermediate grower and very vigorous. Blooms regularly every year and is easy to grow. Sepals and petals intense oxblood with bright yellow margins and cherry red lips. Blooming sized plants.</p>		495.00

O/o	Sarcochilus Fitzhart x Heidi A couple of nice mature plants of this lovely cross, very vigorous and free flowering for showtime in September. Blooming size plants in 12cm pots.		450.00
O/o	Vanda Kulwadee Fragrance Large plant in a 15cm basket.		450.00
O/o	Vanda Pachara Delight FCC/JOGA Blooming size plant in a 15cm wooden basket.		350.00
O/o	Zygoneria Dragon Kitten 'Purr' Fragrant blooms with brightly coloured flowers that should last at least a month. Near blooming size in 12cm pots.		350.00

PHRAGMIPEDIUMS FROM ECUAGENERA

E2	Phrag. Eumelia Arias (<i>P schlimii</i> x <i>P kovachii</i>) These amazing flowers have a slight fragrance of rose from the <i>schlimii</i> parent and a compact growth habit. These are great plants with very nice dark purple flowers and growths that don't creep out of the pot. Lovely blooming size plants in 12cm pots.		650.00
2164	Phrag Fritz Schomburg (<i>besseae</i> x <i>kovachii</i>) or (<i>kovachii</i> x <i>besseae</i>) Perhaps the best primary kovachii hybrid so far, Fritz Schomburg looks like a huge besseae hybrid with colours in purple to coral tones. 9cm pots. 1 left in 9cm Disa pot.		1,145.00

Ecua	<p><i>Phrag Geralda</i> <i>(lindleyanum x caudatum var. giganteum)</i> This hybrid originated by Mr Turner in 1899. It is exceedingly vigorous and makes a good specimen plant. 15cm pots.</p>		1,050.00
O/o	<p><i>Phrag Grande</i> <i>(Phrag longifolium x Phrag humboltii 'Fortuna')</i> This fantastic primary hybrid blooms with intermediate to long petal length with colours that range from yellow-green to orange and red. 10cm pots. Vigorous.</p>		850.00
E7	<p><i>Phrag. Incan Treasure</i> <i>(Phrag kovachii x longifolium)</i> This is a vigorous growing plant with very large flowers. Long lived and easy to grow, this sturdy hybrid produces flowers that are 14 x 14cm in size. The petals are about 12cm in length. Blooming size in 12.5cm pots.</p>		1145.00
E17	<p><i>Phrag longifolium</i> Found from Costa Rica to Ecuador on roadside banks as a medium to large sized, warm to cool growing terrestrial. It has an erect, 60 – 90cm long, several flowered inflorescence with 7 to 9 flowers opening in successions mostly in autumn but could be almost any time during the year. 9cm pots.</p>		750.00
E18	<p><i>Phrag pearcei</i> A small sized, cool to warm growing terrestrial from Peru, Costa Rica and Ecuador growing near rivers and on boulders within rivers. It has no pseudobulbs but its growths are close together. There is a terminal, erect, 14cm long successive opening, multiflowered inflorescence that occurs in the summer and has non fragrant flowers. I find it easy to grow here on the Garden Route. 9cm pots.</p>		595.00

E8	Phrag. Professor Braem <i>(Phrag longifolium x schlimii)</i> Delicate pink colouring of these well held flowers. Blooming size plants in 12.5cm pots.		1,145.00
E20	Phrag richteri <i>(aka P amazonica)</i> Found in Peru as a medium sized, cool to warm growing, natural hybrid terrestrial orchid with the parents of Phragmipedium pearcii and boisserianum. 9cm pots.		950.00
E9	Phrag. Super Rubies <i>(Phrag besseae x Phrag humboldtii)</i> Stunning primary hybrid with good colour and long petals. A must for any Phragmipedium collection! Blooming size plants in 12.5cm pots.		1145.00
O/o	Phrag Sedenii <i>(longifolium x schlimii)</i> A great old hybrid made in 1873. This Phrag is easy to grow and can often bloom twice a year. Blooming size divisions in 12.5cm pot		350.00
1586	Phrag warzewiczianum var. wallisii Hailing from Guatemala and named in 1852 in honour of the plant collector Josef Warscewicz, this phrag is one of the most spectacular members of the phrag species. 9 and 12.5cm pots. One large plant available in a 15cm pot for R1,145.00		995.00
E10	Phrag. Wossner Rosenglanz <i>(Phrag kovachii x Phrag caricinum)</i> This phrag likes intermediate conditions and is a primary hybrid using the famous P kovachii. Blooming size plants in 12.5cm pots.		1,145.00

PHRAGMIPEDIUM DIVISIONS

Below please see the list of divisions of my own plants. I have tried to make them a reasonable price as I realise the overseas plants are very expensive! Please google names and see the flower photos.

PHRAGMIPEDIUM DIVISIONS All of own plants

O/o	PHRAG BARBARA LE ANNE 9cm pot	2 Growths	200.00
5O/o	PHRAG besseae x boisserianum 12.5cm pot	2 Growths	250.00
O/o	PHRAG FRITZ SCHONBERG	2 Growths	350.00

ACCESSORIES, FERTILISERS AND POTTING MIX

	Price.
GARDEN CARE FERTILISER 'NUTRIFEED' – a balanced general plant food suitable for orchids. 500gm re-sealable pack. I use this as a foliar spray for all young plants. I use half strength for most orchids.	R140.00
GROWING ORCHIDS FERTILISER – A high nitrogen fertiliser made for orchids. 500gm re-sealable pack. Use from spring through to January for maximum growth on cymbidiums especially.	R140.00
FLOWERING ORCHIDS FERTILISER – This is a low nitrogen, water soluble formulation for supplementing the nutrient requirements of all flowering orchids in a variety of growing media. 500gm re-sealable packets. 6:20:30.	R140.00
POT LABELS (WHITE) Pot labels 100 x 13mm per 25 labels	R15.00
POT LABELS (WHITE) Pot labels 125mm x 13mm per 25 labels	R20.00
POT LABELS (WHITE) Pot labels 150mm x 13mm per 25 labels	R25.00
SEEDLING MIX (approx. 1.5 kg) This is my special bark recipe which I use for all plants in a 12.5cm pot and smaller. It has excellent drainage and is also great for repotting Phalaenopsis. Highly recommended for Paphiopedilums and Phals.	R75.00
CYMBIDIUM/CATTLEYA MIX (approx. 4 kg) Coarser bark mix for use in all orchids growing in pot size 15cm and larger. It is well drained and contains all the necessary ingredients for plant growth. (EX. NURSERY ONLY – extra for courier)	R100.00
PLAIN BARK – 20-25mm pieces. 20dm cubed sized bag.	140.00
PALM PEAT BLOCKS	R25.00
NUTRISOL 500 ml bottles	R100.00
TRELMIX 200ml bottles	R175.00
BONEMEAL (KOMPEL) 2KG bags	R65.00

CONDITIONS

1. All prices are nett.
2. Mail orders are my speciality, I normally pack on a Monday or Tuesday. Please add 15% to value of the order to cover Courier Guy to the door courier or wait for quote. Please also add a packing charge of R60.00 per order.
3. **Note!** I use Courier Guy Couriers for Door to Door, minimum cost is R250 or wait for quote. Large cymbidiums or other large plants may attract a higher courier fee than 15%.
4. All plants are all sent in their containers with the potting mix sealed into the pot. Large plants can be sent bareroot if requested in order to save money.
5. The nursery is open Wednesdays from 10am – 1pm. All other times by appointment. We are still open if Wednesday falls on a Public Holiday. Please note that we do have Yoko visa card facilities at the nursery.
6. Payment should preferable be made by direct deposit to Outeniqua Orchids. Our account is with Nedbank, Stellenbosch branch code 107-110 (or universal), Account number 1071-257-633. Email copies of deposit slip to stellrsa@mweb.co.za Please do not deposit cash – if you must do, please add R30.00 to cover bank costs.
7. Please note that this list cancels all other lists.
8. DIRECTIONS TO THE NURSERY FROM N2:-
 ADDRESS: 34 Napier Street, Blanco. George, Western Province
From Cape Town:
 After Great Brak continue towards George. Take turnoff GEORGE AIRPORT/HEROLDS BAY. At bottom of off-ramp, turn left to the airport. You will pass entrance to airport on your left. At stop sign, continue straight over the old N2 – direction OUDTSHOORN. From this stop, continue a further 5km – at the end of this distance, you will have Fancourt Golf Estate main entrance on your right hand side – continue another 450m – turn right into Napier Street – continue nearly to the bottom, no. 34 is on the left hand side. The Yellow House is signposted...
From Knysna:
 Continue on N2 past George – Take turnoff left GEORGE AIRPORT/HEROLDS BAY – at bottom of off-ramp turn right to the airport. You will pass(see above).
9. To place an order please download and print the order form directly from the website. Complete your order manually and email to stellrsa@mweb.co.za I will contact you with availability of plants prior to asking you for payment of the order. Pro-forma invoice provided.

Suitable for all Cattleyas and most Dendrobiums. Mostly for genera that like lots of air around their roots. So far I have mini and full sized Cattleyas, Dendrobium nobile, tortile and others, Dendrobium usitae and similar, Dendrobium phalaenopsis types, Eria hyacinthoides is doing well. Its fun to try something different! Comments so far, are what am I going to do when I repot? Well, I will cross that bridge when I have to! At present the roots are so good I am delighted!

DENDROBIUM SPECIOSUM

var. 'Woodcroft'

This photo is just to show you what can be done with a *Dendrobium speciosum*.

This plant was imported from Australia 30 years ago and photographed in my shaded area in September 2014 with Robert looking on. Second photo taken in

2016 before our spring show – transported in a builder's lorry!

It received an Award of Cultural Merit at the Orchid Soc. of the Southern Cape Spring Show.

Babies are growing! Available next spring...

In the meantime Den speciosum var Compacta available f/size R350.00
